

Product Specification Sheet

Mossrock™ Pine Bark 20mm

Product Description:

Mossrock™ Pine Bark 20mm is a mulch made from A-Grade virgin pine bark in a hammer milled form, then screened to a uniform size.

Product Size:

Mossrock™ Pine Bark 20mm is a screened product, all particles have a diameter between 15mm and 25mm. The length of particles vary from 10mm to 40mm.

Materials Used:

Mossrock™ Pine Bark 20mm is made from A-Grade virgin pine bark sourced from pine wood sawmills throughout Victoria, New South Wales and South Australia.

Manufacturing Process:

A-Grade virgin pine bark is harvested and fed into a hammer mill tub grinder to produce a ground bark product. This product is then fed into a screen which sorts the product by size into the final Pine Bark 20mm product.
