

PRODUCT SPECIFICATION SHEET

Mossrock Bush Mulch

A non-screened budget mulch typically made from shredded or chipped branches, leaves and other plant materials from pruning or clearing.

SIZE

- Particle diameter varies 1mm-100mm
- Particle length varies 1mm-100mm.

MATERIALS

- Sourced from arborists and tree loppers
- Commonly a dark brown/red colour but can vary with loads
- Processed by offsite contractors and delivered to our depot.

RECOMMENDED USE

Mossrock Bush Mulch acts as an insulating layer, providing protection to plant roots from extreme temperatures and provides a natural and textured look that blends well with surrounding plants.

INSTALLATION

- Our mulch range can be installed efficiently with our pneumatic blower equipment fleet.

CREATING GREENER FUTURES

move large volumes
10-50m³

blow material up
25 storeys

blow material across
200+ metres

application rate of
15-50m³/hr
