

PRODUCT SPECIFICATION SHEET

Premium Planter Mix (PPM)

Our Premium Planter Mix is perfect for shallow planters providing plants in new constructed landscapes the best opportunity to thrive.

MATERIAL

Our Premium Planter Mix is the best option when high quality growing media is required for podiums, containers and elevated landscapes to a maximum depth of 400mm.

When depths exceed 400mm, use our E2 Subsoil Mix in combination with a PPM top layer.

TESTING

- Developed in consultation with industry recognised Soil Scientists
- Routinely retested to ensure:
 - compliance with the testing criteria
 - customers receive a consistent high-quality product.

INSTALLATION

- Efficiently install PPM in any landscape project using our pneumatic blower equipment fleet.

CREATING GREENER FUTURES

move large volumes
10-50m³

blow material up
25 storeys

blow material across
200+ metres

application rate of
15-50m³/hr
