# Turf & General Use Seed Solutions

**PGG-certified mixes tailored for high-traffic areas, parks, sports fields, and commercial landscapes.**

### OVERVIEW

Whether you're greening parks, sports precincts, passive spaces or caravan parks, the PGG-certified seed blends we use deliver robust, reliable coverage all year round. Designed with performance and site conditions in mind, these mixes help establish healthy, resilient turf with minimal fuss.

### DAN'S POPULAR BLENDS

#### All-Purpose Blend

Two perennial turf ryegrass types for year-round coverage (depending on water supply).

#### Couch/Cool Season Blend

80% cool-season and 20% couch, ideal for growth from April to October.

#### Kikuyu/Rye Grass Mix

Coated Regal Kikuyu + Turf Perennial Ryegrass. Our most popular mix for parks, sports fields, caravan parks, and high-use areas.

#### Straight Warm Season Variety

For November–December sowing. Needs an irrigation system for summer establishment.

#### Park Blend

Tall Fescue, Perennial Ryegrass, and Kentucky Blue. Excellent for domestic use and backyards with irrigation.

#### Shade Mix

Creeping Red, Chewings, and Hard Fescue. Perfect for shaded or sun-affected areas.

### WHY CHOOSE DAN'S MIXES?

- ✓ Certified quality seed
- ✓ Reliable coverage for busy spaces
- ✓ Expert advice for best results.
